

FORD MOTOR COMPANY

EEl Job Number: 205038

FORD-OTOSAN Facility

Kocaeli (Turkey)

2005 Year End Employees: 7,927

Products: Ford Transit and some trucks

Year Opened: 2001

Plant Size: 186,000m²

Vehicles per yr: >125,000 (approx.)

Note: Joint venture 41% Ford/41% Koc Holding/18% public

Country: Turkey

Application: Industrial

Client: Ford - Otosan

Capacity: 180 MMBTU/H

Pressure: 1.75 bar g

NOTE: This SNG system was provided as additional back-up capacity for FORD-OTOSAN. They were very satisfied with the system we initially offered that supplied the complete factory (Kitchen to Paint shops) with SNG until natural gas was available in the area. The first system operated 24/365 for almost 3 years.

(1) AFC™ Blender at 180MMBTU/h and 1.75 bar g SNG

Top: Close-up of Gas Regulation prior to Blender
Bottom: Our on site team at Ford (Turkey) site.

SNG tie -in to NG
